Comments Report

1. What do you like most about the course and instructor?

I liked how enthusiastic was about the subject matter. I liked the way of posing the leading questions when we got the opportunity to discuss.

I like how motivated and inspired both the professor and section leader are about the subject. I also like how the section leader ~~express~~ share and express ideas about a particular topic.

I like the instructor's perspectives on politics as well as ~~was~~ reasoning. I love our discussions, sometimes,

we get to have discussions about politics

was cool and very down to earth, was very understanding and covered the material well

was interpreted in what
was talking about valuable input.

I liked how would run the class

was knowledgeable about the material and genuinely
cared about our learning experience and what
took away from the class

Knowledge about the course material and subject matter

wasn't really all that excited about the course.

The discussions we had.
That we went over
the readings

The discussion helped me to better understand the course material.

knew what was talking about.

Nothing, did not allow any discussion, even
when students wanted to. was rude and
opinionated

Nothing, it was a waste of time. we did
not discuss but sat and read.

that it was informative

The course material was interesting and ~~also~~
~~interesting~~ instructor explained the material effectively.

It helped us see topics from different perspectives

The instructor proved to be very knowledgeable of the subject matter and very intelligent. was always available for the students. The course itself didn't capture my interest.

2. What could the instructor do to improve the course, if anything?

It would be a positive change to the course if we were not so forgiving w/ students that did not complete the reading. It was honestly frustrating for someone like myself who did the readings but still had to read through it with the rest of the class who did not.

~~perhaps~~ perhaps a guideline.

Maybe stir up more debates or ~~use~~ ^{use} interesting techniques to get the class more involved.

less reading in class, that's our homework
we should have more discussions in class

Spend the first half of the class with reading and the second half for discussion. More reading and conversation would get done this way.

Change the readings. Some were boring

Let us have debates.

Made it less difficult

N/A. Course is good.

Require that reading be done in advance & have discussions in discussion.

Show more enthusiasm.

Be more enthusiastic

Using more volume.

everything, less reading

x

Everything. Needs discussion, not reading.

None

could speak louder at times

Have prepared discussions

Require students to have read material; not spend majority of class reading

could be more personable, maybe learn our
names so discussion feels more comfortable.

3. Other comments or suggestions.

If reading before class were mandatory.
the discussion in this class would have been much
better.

Thank you. I learned a lot.

I really enjoyed this class and the way
discusses the topics. is a great
teacher with a beautiful smile.

more positive attitude of instructor
would make this ~~class~~ more interesting
discussion

Good course

the course had high difficulty

Was an interesting class

Great work!

Awful!

If expects students to read the material outside of class, we should not spend the entire class time rereading the material. terrible

Have a Wonderful Summer. I learned a great deal about American Politics.

Great teacher.

Rules! ☺
